

SHAPING AMERICA'S FUTURE

We are committed to a cohesive America.

Ten years from now, you will not find a place of work, worship, playground, school, restaurant, theater and other places of public gatherings where you will not find people of different faiths, races, and ethnicities interacting, working, studying, intermingling, playing and marrying together. This is bound to create conflicts.

A vast majority of us have heard things about others from our friends, news, social media or our own knowledge of others and we instantly form opinions about others. As responsible individuals, we must strive to strip stereotyping and build pathways to ensure smooth functioning of our society, whether it is the workplace or our neighborhoods.

We need to reassure each other, particularly the disconnected ones, that together as Americans, we are committed to safeguarding the American way of life. No American needs to worry about losing his or her way of life. Together as Americans, we uphold, protect, defend and celebrate the values enshrined in our Constitution; an insurer of our way of life.

CFP will continue to bring non-stop actions in practicing pluralism in religion, politics, society, and culture and be a catalyst for a safe and a secure America for each one of us as we move through this transition.

As we learn to respect the otherness of others and accept the God-given uniqueness of each one of us, then conflicts fade and solutions emerge.

Please visit our website and participate as a volunteer, sponsor or a donor. We are a Washington based non-profit 501 (c) (3) organization.

CENTER FOR PLURALISM

<http://www.CenterforPluralism.com>

We define Pluralism as "Respecting the otherness of other."

The Center for Pluralism is committed to building a cohesive America where no American feels excluded. If we can learn to respect the otherness of other and accept the God-given uniqueness of each one of us then conflicts fade and solutions emerge. Our vision is to see each one of us live securely in the pursuit of life, liberty, and happiness

We bring Americans Together in social, religious, cultural, political, civic and other settings. The more we know each other, the fewer the misperceptions would be. At CFP we have programs in place to achieve this mission.

Understanding the ESSENCE OF RELIGION

Atheism to Zoroastrianism
and every tradition in between
13 faiths | 13 workshops

<http://centerforpluralism.com/workshops/>

When we live as neighbors, fellow workers, students, players, activists and inhabitants of the same city, it behooves us to learn about each other's beliefs, motivations, moments of celebrations, devotions or commemorations. The more we know about the other, the less mythical they would become creating a friendly environment for all of us to function effectively in whatever we do. Knowledge leads to understanding and understanding to acceptance of the otherness of others leading us into tension free and sustainable prosperity.
